Project Name	AI StudyBuddy API
Maximum Marks	2 Marks

Customer Journey Map

Mapped for Rahul's end-to-end journey through AI StudyBuddy, from account setup to receiving a full set of AI-generated study resources.

Phase of Journey	Stage 1: Account Setup	Stage 2: Upload Material	Stage 3: AI-Generated Study Aids
Actions What does the customer do?	Registers/logs in; receives an access token and refresh token for subsequent requests	Uploads a study file (.txt/.md/.pdf, up to 5 MB) with a title, which is parsed and stored as a Material record	Requests a summary, flashcards, a quiz, or a study plan generated from that material by Google Gemini
Touchpoint What part of the service do they interact with?	POST /api/auth/register , POST /api/auth/login , POST /api/auth/logout	POST /api/materials/upload	POST /api/materials/:id/summarize , /flashcards , /quiz , /study-plan (Google Gemini gemini-2.5-flash)
Customer Thought What is the customer thinking?	"I hope my account and uploaded notes stay private and secure."	"Finally, one place for all my scattered material."	"This is doing in seconds what used to take me an entire evening."
Customer Feeling What is the customer feeling?	Cautiously optimistic	Relieved and organized	Confident and exam-ready
Process Ownership Who is in the lead on this?	Auth Controller & Middleware – Selva Rathinam, Prajin M	Material Controller & Upload Middleware – Seravin V	AI Service (Gemini) – Naresh Kumar P, Seravin V
Opportunities How can we improve this stage?	Add email verification on registration	Support additional file types (e.g. .docx) in a later release	Let students rate generated quizzes/flashcards to refine future prompts
